EDUCATION

University of Florida

Gainesville, FL

B.A., Biology

MPH, Population Health Management

WORK EXPERIENCE

Marian Cheek Jackson Center, Repairs Program

Sept. 2024 – May 2025

Researcher

Chapel Hill, NC

- Led stakeholder-driven needs assessment initiatives to evaluate the efficacy of the *Promise of Home Repairs Program* supporting aging-in-place in historically marginalized communities.
- Designed and facilitated multi-stakeholder focus groups; performed thematic qualitative coding to extract operational inefficiencies and service gaps.
- Conducted quantitative data modeling and visualization using Tableau dashboards to identify programmatic performance trends.
- Produced actionable, stakeholder-specific recommendations that optimized service delivery and resource allocation through formal impact-evaluation methodology.

Vanderbilt's Monroe Carell Jr. Children's Hospital

April 2024 – Aug. 2024

Pediatric Trauma Injury Prevention Intern

Remote

- Developed multilingual evidence-based educational materials addressing the highest-incidence pediatric trauma mechanisms, including firearm safety and motor-vehicle injury prevention.
- Executed county-level data acquisition and analytics supporting the BITZ Safe Driving Program, designing structured surveys to quantify program outcomes and behavioral impact.
- Delivered executive-level briefings and formal technical reports to trauma department leadership, translating findings into programmatic improvements.

UF Health, Archer Family Health Care

Jan. 2023 – May 2023

Population Health Intern

Archer, FL

- Deconstructed longitudinal EHR datasets into six analytic periods to evaluate Hepatitis C screening interventions in a rural primary care environment.
- Applied population-health performance metrics to isolate high-yield clinical workflows, driving measurable improvements in preventive screening uptake.
- Conducted preventative-care gap analysis across age cohorts and sustained documentation integrity for the Chronic Care Management Program.

Integrated Care Network of Florida

Jan. 2021 – April 2021

Intern

Tampa, FL

- Coordinated statewide PPE procurement during the COVID-19 public-health emergency, analyzing vendor capacity, cost efficiency, and supply-chain risk.
- Conducted product-availability assessments and generated vendor-selection recommendations to executive leadership.

CERTIFICATIONS, SKILLS & INTERESTS

Certifications: HIPAA & Patient Privacy

Skills: Stakeholder & Community-Based Organization Collaboration; Strategic Planning; Implementation Science & Program Evaluation; Mixed-Methods Research Design & Analysis; Data Management Planning & Workflow Optimization; NIH-style Reporting & Internal/External Deliverables

Interests: Painting (Watercolor); Hiking; Strength Training; Traveling; Stationary
